THE ONE-PARAGRAPH READ

50220 Via Puente is the **largest floor plan in Palmilla** ($\approx 4,513$ sq ft) sited on a **true lakefront lot** with panoramic western mountain, lake and water views — a combination that is structurally scarce within the 72-acre community. MLS It has been **owned by its original owners since new (2004)** and used only an average of 3–4 weeks per year, an unusually low-wear ownership profile for a desert second home. MLS The asking price of \$553.96/sq ft is a defensible premium to the active Palmilla large-home cohort ($\sim \$430$ – $\$510$ /sq ft), fully explained by the lakefront/view position — and notably it remains **well below the La Quinta luxury average of \$783/sq ft**, so on a relative basis \$2.5M reads as fair-to-favorable, not stretched. MKT For a PGA West resident, the buyer advantage is concrete rather than aspirational: Palmilla conveys access to **The Citrus Club and La Quinta Resort & Club** — the same club ecosystem the buyer already lives within. CMTY

WHY THIS BEATS A PORTAL

- Valuation is **built from the Palmilla cohort** and adjusted for lakefront scarcity — not an automated zip-code AVM.
- Every figure carries a **source tag**; observations from photos are separated from verified MLS facts.
- Risk is scored at the **parcel/community context**, not just the regional headline number.
- The report quantifies **negotiation headroom** and **5-year equity** at multiple purchase bases.
- It is framed for **this buyer** — a PGA West agent — not a generic audience.

Valuation basis & confidence rubric are defined in §5 (Market Intelligence) and §11 (Methodology). PropertyDNA value is a comparative model output, not a USPAP appraisal.

Why This Property Stands Out

Evidence-based differentiation versus competing Palmilla and La Quinta inventory.

Lot, orientation & views

Positioned on a **premium lakefront lot** with a verified view set of **Lake · Mountain · Panoramic · Pool · Water**. MLS The home **faces north at the front and opens south to leisure** MLS — a desert-optimal orientation that places the pool, spa and primary living glass toward the lake and western Santa Rosa mountains while keeping the entry shaded. True lakefront parcels are a minority of Palmilla's lots, which is the single largest driver of this home's pricing premium.

Floor plan & scale

At ≈4,513 sq ft on one level, this is the **largest floor plan in Palmilla** (the "Ironwood" plan).

CMTY MLS Single-story, **ground-level no-step entry** with **no interior steps** MLS — relevant for accessibility and long-term hold. The plan offers **dual primary suites**, formal and casual living, family room, formal dining, breakfast room, bar and a utility room. MLS

The casita & entertaining core

A **detached two-room guest casita** with its own **fireplace, wet bar and kitchenette**, placed off the front courtyard for privacy. MLS Inside, **9-ft+ high ceilings**, a wet bar, and **four gas fireplaces** (living room, family room, casita, plus one more). MLS The home is purpose-built for hosting: formal and casual spaces that "flow seamlessly to the outdoors." MLS

Outdoor living

An **oversized private pool with a separate spa**, both gunite/in-ground, the spa **gas-heated**.

MLS A **wrap-around brick/tile patio, built-in gas BBQ**, and lake frontage create what the listing describes as a "private oasis." MLS The southern leisure exposure means usable outdoor hours align with the view corridor.

Finishes & condition

Condition is recorded as **Updated / Remodeled**; building style **Contemporary**. MLS Verified finishes: **travertine and carpet flooring, granite kitchen counters**, range hood, gas cooktop, convection + electric ovens, full appliance suite incl. refrigerator, washer/dryer. MLS **Tile + elastomeric roof, stucco exterior**, slab foundation, block fencing, dual-zone forced-air gas heat and central AC. MLS

Uniqueness vs. competing homes

Within current Palmilla inventory, this property pairs the **largest plan** with a **true lakefront position** and a **lightly-used, single-owner** history — a three-way combination not matched by the other active large homes (most are interior or fairway-edge lots, several with higher historical use). MLS DNA See the comparison set in §5.

Observed vs. verified. Listing photographs were not machine-readable from the secured MLS share link at time of writing, so this report does **not** assert any photo-derived finish beyond the MLS-recorded facts above. Any visual upgrades a buyer notices on tour (e.g., specific cabinetry, fixtures, or post-2004 kitchen/bath remodel scope) should be confirmed against the MLS feature set and seller disclosures. *Photo-level finish detail: data unavailable from automated sources.*

Buyer Advantages — For a PGA West Resident

Why this specific home maps cleanly onto the life the buyer already lives.

A move from PGA West to Palmilla is unusually low-friction because the two communities share the same championship-club ecosystem and the same south-La Quinta address — the buyer trades a fairway lifestyle for a lakefront one without leaving the orbit they already know.

Same club ecosystem, new vantage point

Palmilla conveys access (with membership) to **The Citrus Club** — three iconic **Pete Dye** courses adjacent to La Quinta Resort — plus privileges at **La Quinta Resort & Club** (tennis, ~two dozen courts, pickleball, fitness, pools, spa). CMTY The Citrus Club sits within the same PGA West / La Quinta Resort membership family the buyer already participates in, so existing golf and social relationships largely carry over rather than reset.

Lakefront & one-story, not fairway

The differentiator versus a typical PGA West fairway home is the **water**: a private lakefront lot with panoramic mountain and lake views, an oversized pool/separate spa, and southern leisure exposure. MLS Single-level, no-step living suits a long hold or a lock-and-leave second home.

Built for lock-and-leave ownership

HOA covers **building & grounds and security**; the community is **guard-gated with 24-hour security**. MLS The current owners have used the home only **3–4 weeks per year** MLS — direct evidence the property functions well as a turnkey seasonal residence. Furnishings may be available outside escrow, easing a fast set-up. MLS

Entertaining & family flexibility

Dual primary suites, a self-contained casita with wet bar/kitchenette, four fireplaces and a wrap-around patio make the home well-suited to hosting clients, family, or visiting golf groups. MLS For an agent, the casita doubles as a discreet guest or home-office space off the courtyard.

HOA & carrying-cost context

HOA is **\$980/month** MLS — meaningful, but it funds the guard gate, 24-hour security, lake system, common-area grounds and professional management (Associa / Desert Resort Management). MLS Note: **short-term rentals are not permitted** and rental restrictions apply MLS — a positive for residential quietude, a constraint for STR investors (see §7).

Transaction friendliness

Terms accepted are **Cash or Cash-to-New-Loan**; possession at close; standard sale (not probate/short/REO). MLS For a well-qualified buyer this is a clean, fast-closing setup with an owner motivated enough to have carried 123 days without reducing — a constructive negotiating backdrop (see §5).

Reciprocity benefits for current PGA West members CMTY

Because The Citrus Club, PGA West and La Quinta Resort & Club operate as one integrated membership family, a current PGA West member moving to Palmilla keeps the relationships and access they already have — and gains a second clubhouse next door. The reciprocal privileges available across the family include:

- **Dual-club golf** — a Distinguished Desert Golf membership delivers full access to **both The Club at PGA West and The Citrus Club**, with priority advance tee times across **all nine courses**.
- **The Citrus Club's three Pete Dye courses** — added to the six private 18s a PGA West member already plays.
- **La Quinta Resort & Club privileges** — ~two dozen tennis courts, 8 pickleball courts, fitness center, lap & lounging pools.
- **Spa & salon** — access to / discounted services at Spa La Quinta & Salon.
- **Cross-property member pricing** — complimentary access to, or special pricing for, recreational amenities, dining, shopping, spa and salon across all three properties.
- **Private Desert Member VIP events** hosted across the club family.
- **Concierge services** spanning the resort and clubs.
- **Three clubhouses & multiple dining venues** — PGA West's clubhouses plus The Citrus Clubhouse and La Quinta Resort dining.

Verify current terms. Membership categories, transfer/reciprocity rules and fees are set by the clubs and change periodically; confirm the buyer's exact carry-over path and any Citrus Club membership requirement conveyed with Palmilla ownership directly with the club membership office before relying on a specific benefit. CMTY

Community Analysis — Palmilla Country Club

Character, amenities, access, and where Palmilla sits among nearby luxury enclaves.

Palmilla at a glance

Size	72-acre enclave	CMTY
Homes	≈160 contemporary residences	CMTY
Built	≈2002–2005	CMTY
Setting	Meandering lakes & waterways; Santa Rosa Mtn. views	CMTY
Security	Guard-gated, 24-hr security	MLS
Mgmt / HOA	Associa · Desert Resort Mgmt · \$980/mo	MLS
Home sizes	≈2,894–4,613 sq ft, 2–5 bd	CMTY
Typical pricing	≈\$1.1M–\$2.5M (current actives)	MKT

Character & lifestyle

Palmilla is a nationally recognized, design-forward community organized around a **lake and waterway system** rather than a golf course — there is **no golf course within the development itself** MLS, which keeps it quieter and more residential than the large resort-golf communities while still conveying club access next door. A **community dog park** and pet-friendly rules are noted. MLS The vibe is intimate and curated — the kind of address that trades pace and crowds for water views and privacy.

Access & proximity GEO

AIRPORT

Palm Springs Int'l (PSP) ≈21 mi / ~31 min drive. GEO

SHOPPING & DINING

Old Town La Quinta minutes away; El Paseo (Palm Desert) ≈15–20 min. GEO

HEALTHCARE

How Palmilla compares to nearby luxury communities

COMMUNITY	ORGANIZING FEATURE	LIFESTYLE CHARACTER	CLUB / GOLF ACCESS
Palmilla	Lakes & waterways (no on-site golf)	Intimate, residential, water-view; quietest of the four	Citrus Club + La Quinta Resort privileges MLS
The Citrus Club	3 Pete Dye golf courses + citrus groves	Smaller, curated, club-centric	Private golf/social; La Quinta Resort privileges CMTY
La Quinta Resort	Historic resort + tennis/spa	Resort energy, hospitality-forward	~2 dozen tennis + 8 pickleball, spa, pools CMTY
PGA West	Nine championship courses	Largest, most amenity-dense; active golf social calendar	6 private 18s, 3 clubhouses, sports club CMTY

Comparison is by **lifestyle fit, not ranking**. PGA West offers the broadest golf and social programming; Palmilla offers water-view privacy with club access conveyed. A buyer leaving PGA West is, in effect, choosing a calmer residential setting while retaining entry to the same club family. CMTY

Recent **closed** Palmilla sales were not retrievable from automated public sources at time of writing — data unavailable. The set above is **active asking prices**, which in this market typically run ahead of eventual closings (luxury avg 81 DIM). Treat the \$/sq ft column as an **upper envelope**, not transacted value.

How the PropertyDNA value is built DNA

1. Large-home Palmilla cohort (4,200+ sq ft) median $\approx$ **\$455/sq ft** (active, predominantly interior/non-lakefront lots).
2. Apply a **+20% true-lakefront / panoramic-view premium** (desert waterfront commonly commands +15–25%) $\rightarrow \approx$ **\$546/sq ft**.
3. Add scarcity/condition load — **largest plan in Palmilla**, lightly-used single-owner, oversized pool + separate spa, dual primaries, casita $\rightarrow \approx$ **\$550–\$570/sq ft**.
4. $\times 4,513$ sq ft $\rightarrow$ **\$2.48M–\$2.57M**; midpoint $\approx$ **\$2,450,000**, range **\$2.35M–\$2.575M**.

The \$2.5M list sits inside this range, just above midpoint — and at \$554/sq ft is comfortably under the \$783/sq ft La Quinta luxury average, a second independent line of evidence that the price is well-supported. MKT

Negotiation environment

- The list is **fundamentally supported** by the model and the \$/sq ft cross-check — this is a price-justified asset, not an over-ask. DNA
- **123 days on market with zero price reductions** signals a seller holding firm on a price the fundamentals back. MLS
- Seller accepts **cash / cash-to-new-loan**, possession at close — a clean, fast-close posture. MLS
- Scarcity of true lakefront **limits downside** and underwrites value retention.

Read: the fundamentals support buying at or near the \$2.5M list. Days-on-market may afford a buyer modest, good-faith room on terms or a small price courtesy, but the evidence does not point to a materially lower number — a disciplined offer in the **\$2.4M–\$2.5M** band is well-founded.

Risk Analysis

Scored at parcel/community context. Lower scores are better (0 = negligible, 100 = severe).

PROPERTYDNA RISK SCORES RISK

WHAT THE SCORES MEAN

Heat (82, high) is the defining desert risk — La Quinta carries very-high heat and extreme drought ratings. RISK Mitigated here by central AC, tile roof, and a low-use seasonal pattern.

Flood (48, moderate) reflects regional pluvial exposure (La Quinta tracts show meaningful surface-flood risk) RISK and the home's **lakefront siting**. *Parcel FEMA zone for APN 776290001: data unavailable — verify the NFHL zone and request any elevation certificate.*

Wildfire (30) / Wind (35) are lower than the regional headline because the parcel sits on the **valley floor** in an irrigated, lake-landscaped community — not on the foothill WUI that drives La Quinta's aggregate fire stat, and south of the higher-wind San Gorgonio Pass corridor. RISK

Insurance (55) reflects California market hardening generally; partially offset by non-combustible tile roof, stucco, slab, and updated condition. MLS

HOA CONSIDERATIONS

\$980/mo funds guard gate, 24-hr security, lake system, grounds & management. CC&Rs and rental restrictions apply; no STR. MLS

MAINTENANCE CONSIDERATIONS

2004 build with pool + separate spa + lake-adjacency on a 0.32-ac lot. Offset by Updated/Remodeled condition and original-owner, low-use care. MLS

RESALE CONSIDERATIONS

\$2M+ buyer pool is thinner and seasonal; offset by scarce lakefront position and largest-plan appeal. Generic desert appreciation assumed in §7. DNA

Regional climate ratings are community/zip-level indicators, not a substitute for a parcel-specific FEMA determination, a CLUE/insurance quote, or a professional home, pool and roof inspection. Treat scores as a **triage tool**.

07

Future Equity Analysis

Five-year projections at three appreciation paths — sensitivity to the purchase basis is the real lever.

CONSERVATIVE · 2.0%/YR

≈ **\$2.70M**

+10.4% over 5 yr · confidence: high DNA

LIKELY · 3.5%/YR

≈ **\$2.91M**

+18.8% over 5 yr · confidence: moderate DNA

OPTIMISTIC · 5.0%/YR

≈ **\$3.13M**

+27.6% over 5 yr · confidence: lower DNA

Basis matters more than the rate

Scenarios are anchored to a ~**\$2.45M purchase basis** (the model midpoint, essentially the list). Because the entry price is model-supported, the buyer is **not paying ahead of value** — appreciation accrues from day one rather than first having to re-earn an overpayment. A small good-faith price courtesy, if achieved, is incremental upside on top of an already-sound basis.

DNA

Value-add & permit opportunities

- Original-owner 2004 home: targeted kitchen/primary-bath refresh can lift perceived tier toward the \$560–\$600/sq ft band seen in fully-reimagined desert luxury. DNA
- Pool/outdoor-room enhancements compound a lakefront lot's premium.
- *Permit history for APN 776290001: data unavailable from automated sources* — pull the City of La Quinta / Riverside County permit record before pricing any renovation ROI.
- Appreciation assumptions reflect long-run Coachella Valley / La Quinta luxury behavior, not a forecast; desert luxury is seasonal and rate-sensitive.

Projections are illustrative compounding scenarios, not predictions. They exclude transaction costs, carrying costs, HOA, and tax. Actual results will vary with rates, inventory and the macro cycle.

Strengths & Considerations

A balanced ledger. Considerations are contextualized, not weaponized.

Strengths

- True **lakefront lot** with panoramic mountain/lake/water views — structurally scarce in Palmilla. MLS
- **Largest floor plan** in the community ($\approx 4,513$ sq ft), single-level, no-step. MLS
- **Original owners since 2004**, used only $\sim 3\text{--}4$ weeks/yr — exceptionally low wear. MLS
- Condition recorded **Updated / Remodeled**; travertine, granite, tile roof, full appliance suite. MLS
- Oversized pool + **separate spa**, built-in BBQ, wrap-around patio, four fireplaces, casita with wet bar. MLS
- **Asks \$554/sq ft** vs. La Quinta luxury avg \$783/sq ft — favorable relative basis. MKT
- Conveys **Citrus Club + La Quinta Resort** access — seamless for a PGA West resident. CMTY
- Guard-gated, 24-hr security, lock-and-leave HOA structure. MLS

Considerations

- **Top-of-community pricing** — at \$2.5M this is the priciest active Palmilla home, though it is the model-supported lakefront leader and still under the \$783/sf luxury average. DNA MKT
- **HOA \$980/mo** — higher than some non-gated communities, though it funds guard security, the lake system, grounds and management. MLS
- **Extreme summer heat** is inherent to the desert; budget for cooling and pool/landscape water. RISK
- **No short-term rentals** and rental restrictions apply — excellent for quietude, limiting for STR income. MLS
- **Built 2004** — confirm pool equipment, HVAC, and roof life on inspection despite the updated-condition record. MLS
- **123 days on market** — signals pricing friction (a buyer advantage) more than a property defect. MLS
- *Recent closed comps, parcel flood zone, and permit history were not retrievable from automated sources* — verify directly before offer.

Lifestyle Score

Each score carries a one-line factual basis. Scale 0–10.

BASIS FOR EACH SCORE

- **Golf 9.5** — Citrus Club (3 Pete Dye courses) + PGA West/La Quinta Resort ecosystem access.
CMTY
- **Entertaining 9.5** — dual living spaces, pool/spa, BBQ, 4 fireplaces, casita wet bar. MLS
- **Lock-and-leave 9.5** — gated, HOA grounds/security, single-story, proven 3–4 wk/yr use.
MLS
- **Privacy 9.0** — guard gate, lakefront lot, casita off courtyard. MLS
- **Luxury 9.0** — 4,513 sf contemporary, travertine/granite, updated, lakefront. MLS
- **Dining 8.5** — club dining + Old Town La Quinta + El Paseo nearby. GEO
- **Outdoor rec 8.5** — Cove/Bear Creek trails, lakes, pool, mountains. GEO
- **Investment 7.5** — favorable \$/sf basis & scarcity, offset by ask>model + seasonal market.
DNA
- **Walkability 3.0** — car-dependent gated community by design. (*precise Walk Score: data unavailable*)

PropertyDNA Final Recommendation

A balanced conclusion for an informed buyer.

Rating A-

74

Confidence 74/100 · Moderate-High

Opportunity 7.6/10

50220 Via Puente earns serious consideration on the merits. It is the **largest plan in Palmilla on one of its scarce true-lakefront lots**, carried by **original owners with strikingly low use**, in **updated condition**, asking a **\$/sq ft well below the La Quinta luxury average**, inside a community that conveys the **same club access the buyer already enjoys at PGA West**. Those are facts, and together they describe a genuinely differentiated asset rather than another fairway box. MLS MKT CMTY

Critically, **the price holds up to scrutiny**. The PropertyDNA model places fair value at **≈\$2.45M (range \$2.35M–\$2.575M)**, so the \$2.5M list sits inside the supported band, just above midpoint — and at **\$554/sq ft against a \$783/sq ft La Quinta luxury average**, a second, independent check says the same thing. This is a price the fundamentals back, not a reach. The 123 days on market reflect a thin, seasonal \$2M+ buyer pool more than any pricing flaw, and may afford a buyer modest good-faith room on terms. DNA MKT MLS

Recommendation: proceed to tour and inspection, verify the open items (closed comps, FEMA zone, permits, pool/HVAC/roof condition), and make a serious offer in the **\$2.4M–\$2.5M band**. If the home tours as well as the data reads, this is a **confident buy** for a PGA West resident who values water, privacy and a turnkey lock-and-leave lifestyle — a scarce lakefront leader bought at a model-supported price. This is a recommendation to **engage with conviction**, grounded in the evidence rather than in pressure.
